

Elgin Oregon
June 18 1962

R E M O N S T R A N C E

The Honorable Mayor and City Council of,
Elgin, Oregon.

We the undersigned, all being residents and tax payers of Elgin, Union County Oregon, hereby register our strong and serious remonstrance, against the building of a barn or barns, or any other permanent building, within any residential district of the City of Elgin, which from the nature of the building, and/or the building's anticipated use, would be, or might ultimately be a nuisance, or which would devalue the value of properties of other tax payers, whether next adjoining, or in close proximity of such a structure.

This remonstrance is being made, as a result of there now being in course of construction, in Block 21 of Hindman's Addition to the City of Elgin, a permanent barn, approximately 24X32 feet and two stories in height. This barn is less than four feet from adjoining properties of another tax payer, less than thirty feet from an adjoining taxpayers back yard, and less than 48 feet from an adjoining taxpayers residence. It is our considered opinion, that such willful and arrogant action by the builders of this barn, is against the general welfare and happiness of all residents of Elgin Oregon, that said building seriously devaluates, not only adjoining properties, but of all properties in the vicinity, and that great injustice is being done. It is our further considered opinion, that such a building and/or, it's use, is in direct violation of several statutes and ordinances of the City of Elgin, and that same action, should not be countenanced, nor allowed to continue, by the governing body of the City of Elgin.
